

Project Description

Nelson & Pope provided engineering, surveying and environmental services, including sewage treatment plant design expansion, for this 102-unit development by one of Long Island's largest apartment developers. The project, located on Broadway Avenue in Holbrook adjoins another apartment complex constructed by the same developer, was completed in 2010.

Relevant Project Components

- Topographic Survey
- Boundary Survey
- Conceptual Plan Modifications
- Site Engineering
- Sanitary Collection System Design
- Design of Sewage Treatment Plant Expansion
- Fair Housing Act Accessibility Compliance / Coordination of Peer Review
- Stormwater Pollution Prevention Plan (SWPPP)
- SEQRA Processing
- Processing through Town and County Agencies.
