

### *Client*

Huntington Hospital  
270 Park Avenue  
Huntington, NY 11743  
631-351-2000

### *Project Description*

Nelson & Pope has provided civil engineering and land surveying services for the phased expansion of the Huntington Hospital for almost twenty years. The hospital completed a major 70,000 SF building addition in 2006. N&P prepared site improvement documents for this project, obtained necessary approvals from the Town and County, and provided construction related services.

The hospital completed a 475-car multi-level parking structure to mitigate parking issues. N&P prepared the site improvements documents for the parking structure and secured the necessary Town approvals. N&P also provided construction support services.
